

**Sparking
Imaginative Learning**

**Mad Science presents:
Jr. Rocketry &
School House Chess**

*Some of the classes we
will conduct this semester
are as follows:*

Jr. Rocket Academy for Grades 3-5

Design, draw & create your very own series of model rockets. A great way to investigate space flight, engineering and aerodynamics! (Each Rocket takes 1-2 weeks to complete/Students will build several rockets and gliders over the session.)

School House Chess for Grades K-5

Schoolhouse Chess is devoted to helping kids develop learning and thinking skills by teaching them chess. Chess has been proven to help with logic, memory, analysis, reading, and mathematics, and has even been shown to improve IQ. However, Schoolhouse Chess understands the importance of making learning fun! We teach chess with fun characters and stories that are woven into a logical, step-by-step curriculum that begins with the basic rules and extends through advanced strategies and tactics.

A minimum number of students must be enrolled in order for each class to run. Final decisions to run or cancel will be made before the start date of the program. There are no refunds for programs children fail to attend.

**Mad Science is coming to:
Holy Child Jesus Catholic Academy
111-02 86th Ave
Richmond Hill, NY 11418**
